West Yorkshire Information Service

Transdev Blazefield Current Fleet Lists

As at 28th August 2022

What's new in this update?

Further to the last update, Scania/Wright Solar 1616 is another being revived for service at Burnley. Rosso Volvo B7RLEs 1716/24 are now away at Bus & Coach World for repaint and then onward to Team Pennine (Elland). Team Pennine Optare Tempo 1409 moved to withdrawn (probably withdrawn some time ago). Rosso 1235 is considered withdrawn but is still taxed and tested, so we've left it in the main fleet there for now. The 2nd August update queried whether the reports of Keighley Volvo/President 2701 being withdrawn were correct. We have not had any responses to that, but the MoT expired in early June. We've left it in the Keighley section for now but will move it to withdrawn shortly unless we hear otherwise. Team Pennine Dart 721 SN55HTY was believed to have gone, but is actually in store at Blackburn. Storage locations added or amended for Solo 179, Volvo B10BLE 569, DAF 1222, DAF/Optare decker 2201, Volvo B7TL 2724 and Optare Tempo T992, all of them are at Blackburn. It's therefore unknown where DAF 1221 and decker 2203 are, they may have already been disposed of, if you know for definite, please email in.

23rd August update-

Scania/Wright Solar 1611 is returning to service in Burnley.

19th August update-

Withdrawn Team Pennine DAF SB200/Wright Commander 1211 YJ04HUP (was re-registered on paper at least from KUI9268 in February) has passed to PVS, Carlton for scrap.

18th August update-

The Rosso bus named Keira Walsh has been identified as Enviro200 762.

17th August update-

Harrogate 3619 named Rachel Daly. A Rosso bus has been named Keira Walsh, but it's not yet been identified.

16th August update-

Withdrawn Harrogate Electrics Solos 90 YD63VDA and 91 YJ14BCK are now with The Big Lemon, Brighton. Registrations and chassis/body numbers for the ex-Nottingham Scania deckers currently being refurbished for Transdev are in the withdrawn & stored section at the bottom of the fleetlist.

15th August 2 updates -

Volvo B9TL/Wright Geminis 2422/6 have returned to Rosso after being on loan at Coastliner for several months. Volvo B7RLE 1867 is in use at Flyer, ex-Team Pennine. 2nd update - Team Pennine Volvo B7TL/Wright Gemini 2799 LF52TGV has gone for scrap.

12th August update-

Coastliner 3630 named Beth Mead. Training Bus T995 re-registered T15TDV, although at time of this update it was still showing as PN02HVV on DVLA. Further to the update on the 2nd August, Rosso Streetlite has since been noted in service still in Rosso livery, not Lakeline.

6th August update-

Optare Versa 215 moved from Team Pennine to Flyer in July.

2nd August update-

Burnley Volvo B10BLE 569 X569YUG, Scania 1602 YN05GXU and Volvo B7TL 2724 W412DOE have been withdrawn. Rosso Streetlite 611 is at Read Commercials for repaint, our correspondent believes it's going into Lakeline colours. Also being repainted is Rosso Volvo B7RLE 1725, after which it's going to Team Pennine. Blackburn Volvo B10BLE 1099 PN02HVX is reportedly going to be converted to a driver training vehicle. Despite reports it'd been sold for scrap, long-stored Volvo B6LE P643 UUG remains at Blackburn at present (we haven't put it back in the withdrawn & stored section at present). Keighley Solos 150/1/3/8 all lost their local primary schools names when rebranded for the recent network revisions. Further to the 22nd July update- Burnley Volvo B10BLE 1087 has now been observed with its B12TDV registration. We've had conflicting reports about whether Keighley Volvo B7TL 2701 Y701HRN and 2440 YD02UNB are withdrawn or not - if you are aware of the status of these ones, please email in to the address on the homepage.
