## Transdev Blazefield Current Fleet Lists

As at 7th May 2024

### What's new in this update?

Blackburn Bus Company Volvo B7TL/Wright Gemini 100 has been gutted by fire at Blackburn Bus Station.

#### 5th May update-

The latest ex-Rosso Wright Streetlite to be sent for repaint prior to entering service at Blackburn is 613. Blackburn Optare Versa 237 is being repainted and losing its Blackburn Heroes livery. Please can anyone confirm if Optare Versas 208/16, in short-term use at Harrogate, still carry York & Country branding? Also, we still haven't had confirmation if the Mercedes and Yutong demonstrators are still in use at Harrogate. The address to send emails to is mail.wyis@yahoo.com. Thanks.

#### 2nd May update-

Optare Versas 208/16 remain in short-term use at Harrogate on a school run and service 21. Volvo B7RLE/Wright Eclipse 1825 has returned to Keighley from Flyer. Bustimes updates show Team Pennine Optare Solo 173 as withdrawn.

#### 29th April (2 updates)-

Further to the update yesterday, the entry about the repainted Blackburn Streetlites 618/9 in this "What's New" section was correct but there was a typing error in the Blackburn fleetlist that meant they showed the wrong livery; this has now been corrected. Please can anyone clarify whether Harrogate still has the Mercedes e-Citaro demonstrator and the Yutong U11DD demonstrator? - they don't appear to have tracked lately, but a definitive answer would be appreciated. At Keighley, please can anyone update us on what's happening with Mercedes/Mellor 73, as it hasn't tracked on bustimes since September last year and the MoT expired in mid-March? **SECOND UPDATE 2200hrs** - The Mercedes/Mellor status queried in the first of today's updates should have read **71** and not 73 as stated. 71 is understood to have gearbox issues and will return to service. At Harrogate, ex-York Versas 208 and 216 have reportedly been in service, pending return off-lease.

#### 28th April update-

At Harrogate, the Enviro400EV demonstrator AD24BEV has returned to ADL. At Blackburn, Wright Streetlites 618/9 have been repainted in the Blackburn Bus Company livery, but aren't branded as yet. At Keighley, Volvo B7RLE 1752, referred to in the last report, is back in service but unlikely to be used on Bronte Bus services and similar 1825 is in use at Flyer but we don't know if it's on loan or transferred. Further to the 13th April update, the Harrogate Flower Show shuttle service saw 2 ex-York and Country Optare Versas used - 208/16. At York, more buses are set to transfer in from Malton with effect from May 12th.

#### 20th April update-

Chassis number added for the ADL E400EV demonstrator at Harrogate. Seating capacity also added for it, but this was derived from the ADL website and hasn't been physically checked on the bus itself. Also, it carries The Harrogate Bus Company branding on the front for its stay. Elsewhere, a report from Keighley suggests Bronte Bus Volvo B7RLE 1752 has chassis issues and *may* be out of service. Over at York, of the Optare Versas due to be returned off-lease after recent service changes (see 13th April update), 209 remains in service. At Blackburn, it's reported work hasn't yet started on preparing the ex-Rochdale Wright Streetlites for service. Ex-Rochdale ADL Enviro 200 763 has reportedly had next-stop displays and announcements fitted and, presumably, the rest of the batch will be so treated, too. On social media, there apparently was a report that Keighley schools fleet BMC Condors 1301-4 will be taken out of service and disposed of at the end of the summer term - confirmation is awaited. Thanks as always to correspondents for getting in touch and supplying us with news for our site visitors.

#### 15th April update-

Alexander Dennis Enviro 400 EV demonstrator AD24BEV is in use at Harrogate on service 36, ahead of the production examples arriving in the summer. Few details are known as to chassis number or seating capacity, for example.

#### 13th April update-

A post today by Paul Turner, Commercial Director, has clarified the situation with the Optare Versas at York and Country, with 207-9/13/4/6 to be returned off-lease imminently, although a couple may call at Harrogate for use on the Flower Show shuttles. Further comments say the 16 "36" double deck vehicles from Harrogate will go to Keighley (after summer deliveries of the new ADL "36" fleet) for Aireline and Dalesway services, displacing 2402/3, 2756-9 and 2791-6 to schools work at Keighley and 2776-8 to either Blackburn or Burnley to replace Volvo B7TLs in use at those depots. (Note the mention of 16 Volvo B5s to Keighley would indicate collision damaged 3617 is to be repaired). A demonstrator ADL Enviro 400 EV is expected next week for use on service 36 at Harrogate.

# The Harrogate Bus Company (Starbeck depot)

General Note:- * after the fleet number denotes LED front destination displays, at least. Most LED-equipped buses have these all round, but a few only have front LEDs, retaining flip dot displays at side and rear. Otherwise all buses have roller blind or flip dot displays or a combination of both.
