

# West Yorkshire Information Service

## Transdev Blazefield Current Fleet Lists

As at 9th February 2024 (2 updates)-

### What's new in this update?

An unregistered Alexander Dennis E400EV demonstrator (the type on order for the 36) is at Harrogate. SECOND UPDATE 2045hrs - Keighley Volvo B7TL/Plaxton President 2708 has been withdrawn with chassis issues.

8th February update-

ADL E400MMC 2019 is back in use at Malton, but reports suggest it may be repainted. The Malton van YY55GKP was noted outside Malton garage yesterday, clearing up one of the queries from the 6th February updates.

6th February (2 updates)-

We understand 2019 is to be used to transport management from Transdev in France on a visit to Blazefield operations, and should transfer to Burnley after that. Reports suggest Malton is to lose its full depot status from April 7th - some vehicles will still be outstationed there however and the rest move to York, probably rotated so they end up at York when due servicing or repair. Can anyone clarify if York schools service 226R, run by vehicles used on the Castleline 181 and the 194, is passing to East Yorkshire in April, too? At least two Trax-liveried Wright Streetlites have been debranded, one being 602 and the other possibly 603 - the destination for these vehicles after Rochdale changes hands is unconfirmed. One correspondent reports seeing a red Transdev van at Coastliner - we still have the van there listed as a blue Nissan, so if anyone can identify the van and also whether the 55-plate Nissan is still with Blazefield, please email in. SECOND UPDATE 2345hrs - Paul Turner, Commercial Director, has posted on social media to outline the plans for the Rosso fleet after the operations pass to First in April, with some changes still to be confirmed the main changes are - Solos 188/9 to be withdrawn and disposed of, Wright Streetlites 601-11 to be withdrawn and returned off-lease and similar 612-9 move to be confirmed, Enviro 200s 731-7 to be withdrawn and sold, 761/2 to Team Pennine replacing Solos 173/81 and Enviro 200s763-8 to Burnley to replace Optare Solos 161-4 and the sole remaining MAN 1201, Volvo B7RLEs 1717-21 to Keighley to replace 1729-33 which are to be returned off-lease, Volvo B9TLs 2422/3 to Keighley for an increase in the Keighley-Leeds Aireline service and similar 2424 ro Rosso (Burnley). Also, Mercedes/Mellor Stratas 79-83 will be repainted and go to Keighley allowing similar 68-70 to go to Team Pennine (Elland), and Volvo B7RLE 1751 at Keighley has been withdrawn with engine failure. Tempo training vehicle T991 YJ05XOO was sold for scrap recently. Thanks to Paul Turner for his post tonight.

3rd February update-

Further to the last report, Coastliner 2019 hasn't yet gone to Burnley and is at a contractor undergoing work. From April, North Yorkshire Council tendered services 22/3, 181 (Castleline) and 194, currently operated by York and Country, will pass to East Yorkshire's Pocklington depot. At Keighley, Volvo B7TL 2751 was pictured leaving the depot on tow, destination unknown.

30th January update-

Please could the visitor who emailed to ask about the West Yorkshire Information Service publication West Yorkshire Indicator Blinds 1963 to 1980, please get back in touch at mail.wyis@yahoo.com? Coastliner ADL E400MMC 2019 hasn't tracked for a few days; it's believed it's going to Burnley with 2015-8 - has it moved depots or is it off service for some other reason? Please email in if you know. Thanks as always to our correspondents.

28th January update-

Rosso Enviro 200 765 is now away for painting into Burnley orange livery, although as with similar 763 it may return to use unbranded at Rochdale. It's understood a total of six buses are involved in the programme.

26th January update-

Although Enviro 200 763 was repainted into Burnley orange livery ready for transfer, it's still running from Rochdale depot at present.

22nd January update-

Rosso Alexander Dennis E200 763 has been repainted into Burnley Bus Company livery, the first of several to be transferred out of Rochdale as the transfer of those operations under Greater Manchester franchising approaches.

# The Harrogate Bus Company (Starbeck depot)

| New to First London as DN33596; later to Metrolina as TE1736. Converted to partial open top by Thornton Bros. and to York in 7/2020. Reregistered ex SN09 CFL. Unlicensed (SORN). MoT expired 22/9/23.  |          |  |                            |           |         |          |           |        |
| Key to notes:- BBC = Two tone orange Burnley Bus Company livery; BS = Two tone blue The Shuttle livery; CS = Red City Sightseeing York livery; GMH= Greater Manchester Heroes livery; KBC = Two tone green Keighley Bus Company livery; KBC + BR = Two tone green Keighley Bus Company with Bronte Bus branding; MBU = Yellow Metro MyBus schools livery; MR = Maroon Burnley Connect livery; MR&BFC = Maroon Burnley Connect livery with rear branding for Burnley Football Club; OY&RO = Orange and yellow livery with Rosso branding; RW = Red and white Rosso livery; YT = Yorkshire Tiger orange livery; YTR = Yorkshire Tiger livery with Rosso branding. |          |  |                            |           |         |          |           |        |
| General Note:- * after the fleet number denotes LED front destination displays, at least. Most LED-equipped buses have these all round, but a few only have front LEDs, retaining flip dot displays at side and rear. Otherwise all buses have roller blind or flip dot displays or a combination of both.  |          |  |                            |           |         |          |           |        |
